

Periplus brings the underwater world to the surface by data processing and visualization via an own developed data platform. We focus on supporting and advising the energy sector (Oil and Gas industry, Wind farms). Our clients include the major energy companies, hydrographic inspection organizations, Rijkswaterstaat and various other government organizations. Periplus is located in Amsterdam North.

Due to the expansion of our IT services, we are looking for an experienced

## Senior Fullstack developer

who gets energy from creating a beautiful design, sharing knowledge and where quality goes above quantity. The current development team consists of 4 colleagues. The team develops features for our platform that provide added value for our clients. Our platform structures data and visualizes it in a most easy way. This allows our clients to manage their own assets above and under water (including wind turbines, cables, pipelines). The platform consists of a Blazor front-end and a .NET Core API back-end, hosted on MS Azure.

### Activities

- Plan and schedule the translation of user requirements into technical requirements and programming, testing and documentation of components for our platform, so that it becomes and remains the best platform for structuring and visualizing data;
- Collaborating with colleagues in such way that the best of everyone will surface on the basis of content, so that it is decided as a team which way to go and contribute to the positive working atmosphere;
- Coaching junior colleagues with the intention that they can become better than yourself.

### You bring your experience in these fields:

- Frontend development (Blazor, react)
- Backend development (C#, .NET Core, WebAPI)
- Coaching and developing junior developers
- Good command of the English language
- Permit to work in the Netherlands

### Our offer:

- Competitive salary
- Pension scheme
- Travel allowance
- Possibility working from home
- VrijMiBo
- State-of-the-art Laptop
- An inclusive working environment, autonomously as well as in the team

### Other

In recent years we have built up an IT department within Periplus. This team is fully engaged in the further product development of our platform and is led by Nico Tuijp. Our platform supports the organization in carrying out consultancy work for clients in the Offshore industry. Periplus as a whole employs about 20 people. For more information, please contact Nico Tuijp on +31 (0) 20 636 78 91 or email your details to: [n.tuijp@periplus.nl](mailto:n.tuijp@periplus.nl).
