

Periplus brings the underwater world to the surface by processing and visualizing data in a proprietary data platform. We focus on supporting and advising the energy sector (Oil and Gas industry, Offshore Wind Farms). Our clients include the major energy companies, hydrographic inspection organizations, Rijkswaterstaat and various other government organizations. Periplus is located in Amsterdam North.

Due to the expansion of our activities, we are seeking an experienced

HYDROGRAPHIC SURVEYOR

Do you get energy from independently executing, interpreting and reporting hydrographic measurements on board dedicated equipped vessels? Then this is the job for you! As a Hydrographic Surveyor, you provide the correct data on the basis of which our clients make decisions where, among other things, offshore wind farms are located and cables and pipelines are to be situated on the seabed. The activities take place national and international.

Activities

- You carry out hydrographic measurements on a project basis and ensure optimum data quality for various clients.
- Occasionally installing hydrographic equipment, including the calibration of these systems.
- Interpreting and processing hydrographic data according to the applicable standards, procedures and work instructions, resulting in a correct report for the end customer.
- Working together with other teams within the Periplus Group adding your expertise.

You bring your experience in these fields:

- A degree in Hydrography/Ocean Technology or comparable.
- 3-5 years of relevant work experience.
- A thorough knowledge of hydrographic systems, and leading data processing and/or GIS software.
- MS Office, Word and Excel

Our offer:

- Competitive salary
- Pension scheme
- Travel allowance
- Possibility of working from home
- State of art Laptop
- An inclusive working environment, autonomously as well as in the team

Other

In recent years we have built up a hydrographic team within Periplus. This team is fully engaged in temporarily supporting our clients with hydrographic personnel, and/or with support in the field of data processing and consultancy. The work can take place at the Client's or at Periplus' office. The team consists of 6 permanent employees and a shell of flexible employees and is led by Sander Terwee. The Periplus Group itself employs in total about 20 people. For more information, please contact Sander Terwee on +31 (0) 6 12768794 or email your details to: s.terwee@periplus.nl.
