

Founded in 2004 as a hydrographic consultancy, the Amsterdam-based Periplus Group brings a full range of subsea data and software specialists together under one roof. Our software tools, including GRIDit and GRIDit ALIGN, allow offshore operators to process and analyse data intuitively and efficiently. This allows offshore operators to plan and design projects and to monitor the integrity of subsea assets once they are built. Our clients include the major energy companies, hydrographic inspection organizations and other governmental organizations. We are located at the Kraanspoor in Amsterdam North, a short hop on the Ferry from Central Station.

To optimise the quality of our subsea data platform, we are looking for a

### **Automation Test Engineer (32-40 hrs)**

Are you interested in improving the quality of a web application that is shaping underwater assets from planning through to operations? Are you someone technical who is always interested in learning new skills and acquiring knowledge? Then we would love to hear from you!

#### **Activities:**

- Improving the quality of our web application, GRIDit, and associated modules.
- Setting up and executing manual and automated tests for existing and new functionality.
- Creating datasets to ensure proper ingestion of data.
- Collaborating with developers from the design phase to find defects before code has been written.
- Contribute to (or develop) the automation and monitoring framework.

#### **Your Experience:**

- 2 years' experience with test automation and at least 1 year of manual testing.
- Comfortable with data: reading it and (learning how to) create it.
- Experience testing web applications. APIs and SQL are a plus.
- You have a proven track record of representing the needs of the user/client.

#### **Your Qualities:**

- You see what needs to be done and you do it.
- You take responsibility for the overall quality of the product, not just finding defects.
- You want to grow your skill set.
- You are comfortable working in English.

#### **We offer:**

- Hybrid working – 3 days in Amsterdam North (Kraanspoor, near the NDSM ferry).
- A small, dedicated team of fun professionals.
- Room to grow, flexible in role, make it your own.

#### **How to Apply:**

Do you recognize yourself in the above description and are you ready for a new challenge? Then email your CV to Willem van Mierlo via [info@periplus.nl](mailto:info@periplus.nl). We look forward to your application!
