JOB DESCRIPTION
Medior ASP.NET C# Developer

OUR COMPANY

The Periplus Group is an organization providing specialized ICT-solutions, personnel and know how in the field of hydrography and related disciplines. Besides the "traditional" expertise on hydrographic issues, we focus on providing our clients with high quality applications, consultancy services and project support in areas of geology, geophysics, engineering support, environmental issues, GIS, data processing, data management and underwater archaeology.

We are specialized in the visualization of the seabed. This is visualized in a web-based environment. In this role you will be part of a multi-disciplinary team of specialists in IT, hydrography, geology and archaeology, based in Amsterdam.

In your role you will develop tools that support the development of wind farms and other alternative energy sources. Besides that we have the intention, in the near future, to develop applications to optimize the current workflow in the above mentioned specialized disciplines, like ML (machine learning) and AI (artificial intelligence).

We are looking for a team player who wants to get things done with new technologies and is not afraid to learn about new topics and fields. The job offer is for 40 hour per week; but we can discuss part-time needs.

The new colleague we are looking for is someone who:

- wants to share his or her knowledge, is a good collaborator and has great communication skills;
- can bring structure in the work- and development processes;
- has an independent and professional attitude and is capable to successfully complete complex projects;
- is a problem solver and uses creativity, curiosity and a critical mindset to achieve these solutions;
- is eager to learn latest technologies;

DESCRIPTION OF THE WORK ACTIVITIES

The activities contain in principle, but are not necessarily limited to:

- design, code, test and document applications;
- ensure that all activities are delivered on time and according to the quality standards;

JOB REQUIREMENTS

- HBO + think and work level with a technical background and deep knowledge of and experience with computer science;
- > 5 year experience with C# / ASP.NET / ASP.NET Core;
- Knowledge of and experience with HTML5 / CSS3 / JavaScript / TypeScript / Angular;
- Knowledge of Object Oriented Programing, relational databases and NoSQL database;
- Knowledge Cloud Computing / Azure is a plus;

- Knowledge of and experience with GIS-systems and spatial types is a plus;

- Fluent in Dutch and English, both spoken and written;

- Be able to work in a team;

- Have the ability to document the technical work;

WE OFFER

- A challenging job in a young company with a dynamic work environment;

- Very good terms of employment (primary and secondary);

- 25 holidays;

- Good location, accessible by public transport, car and bike;

If you want to express your interest and you feel that you meet the above criteria, please send your CV and motivation letter to Martijn de Coo at info@periplus.nl
